# Voices from the Source

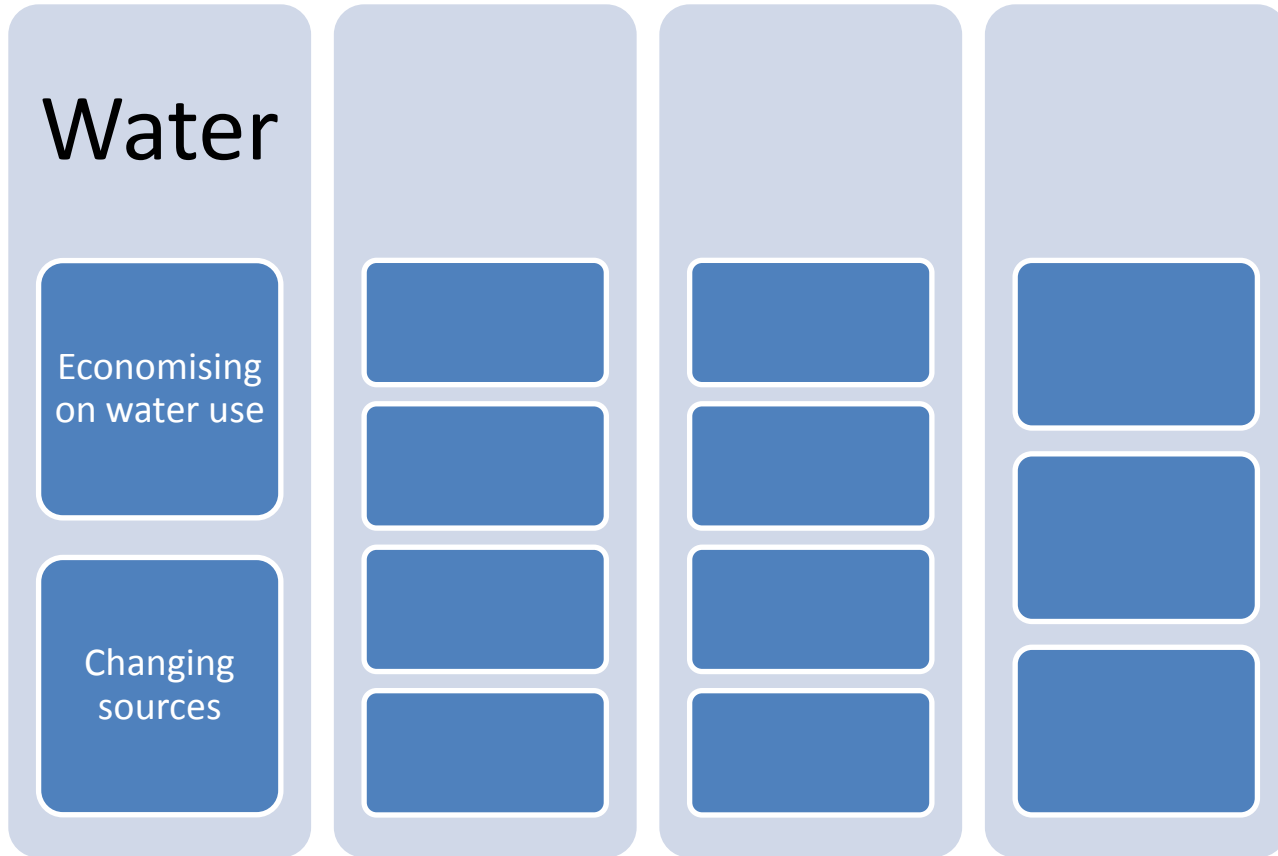

Everybody's talking about water security

- Different values of water
- Different interpretations of 'water security'
- Policy coherence and relevance to needs

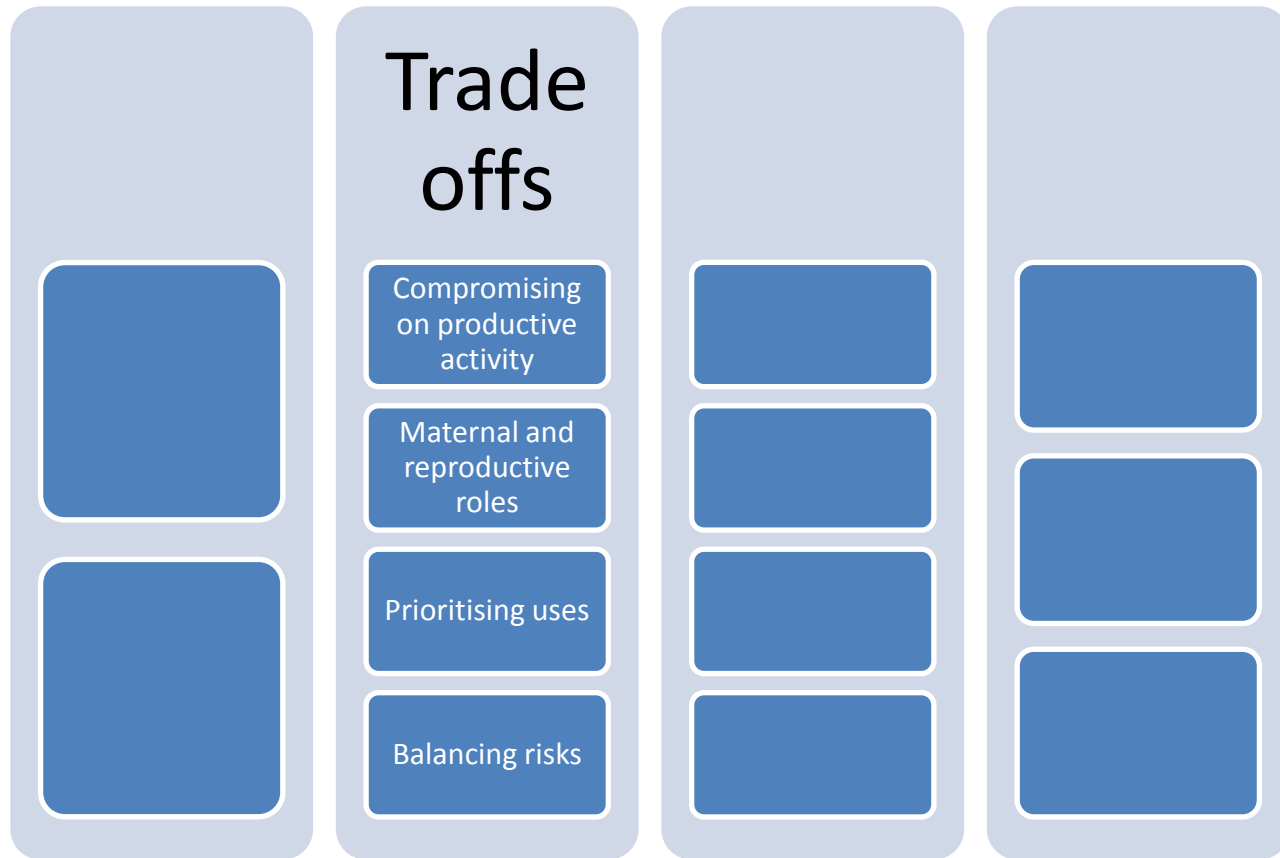

The human face of water security

- Pressures and drivers
- Responses and impacts on lives
- Gaps

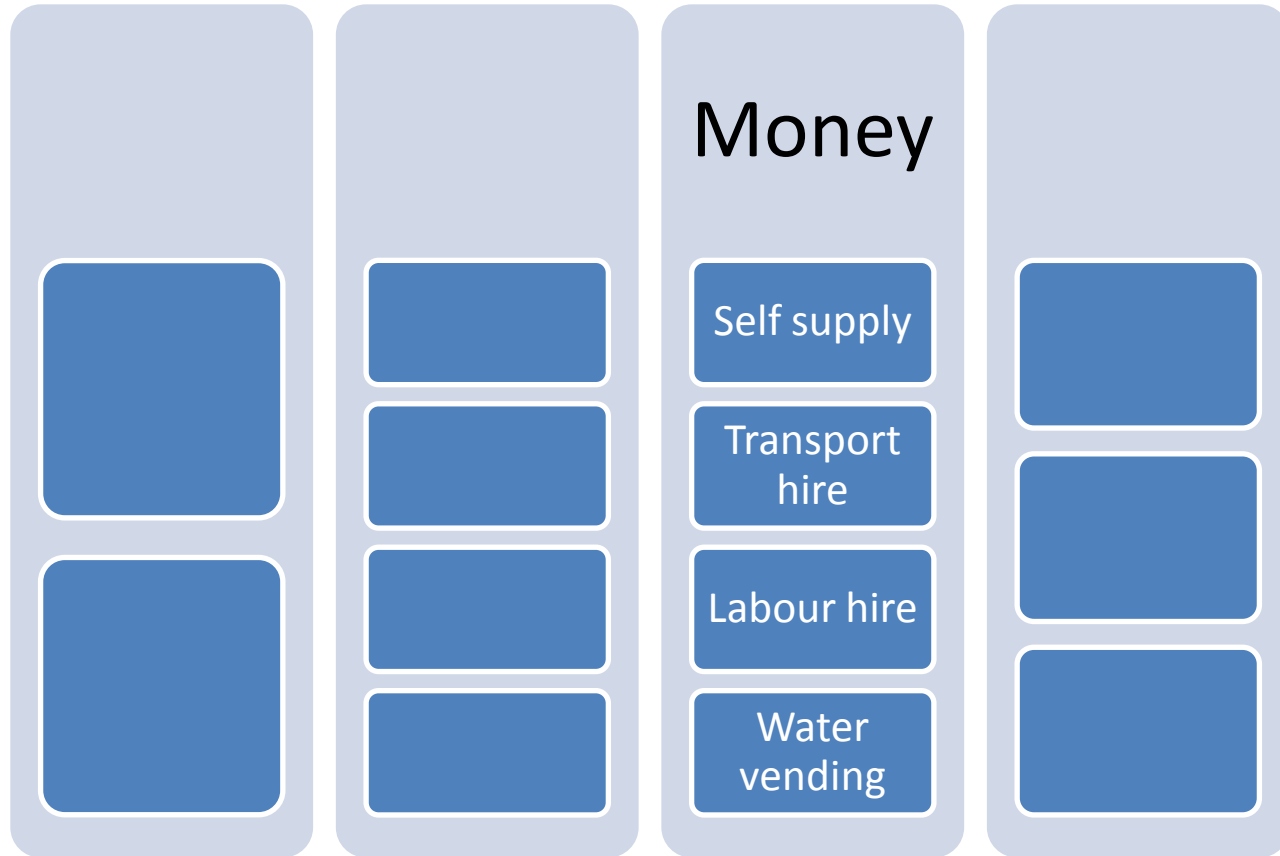

# Responses and Impacts

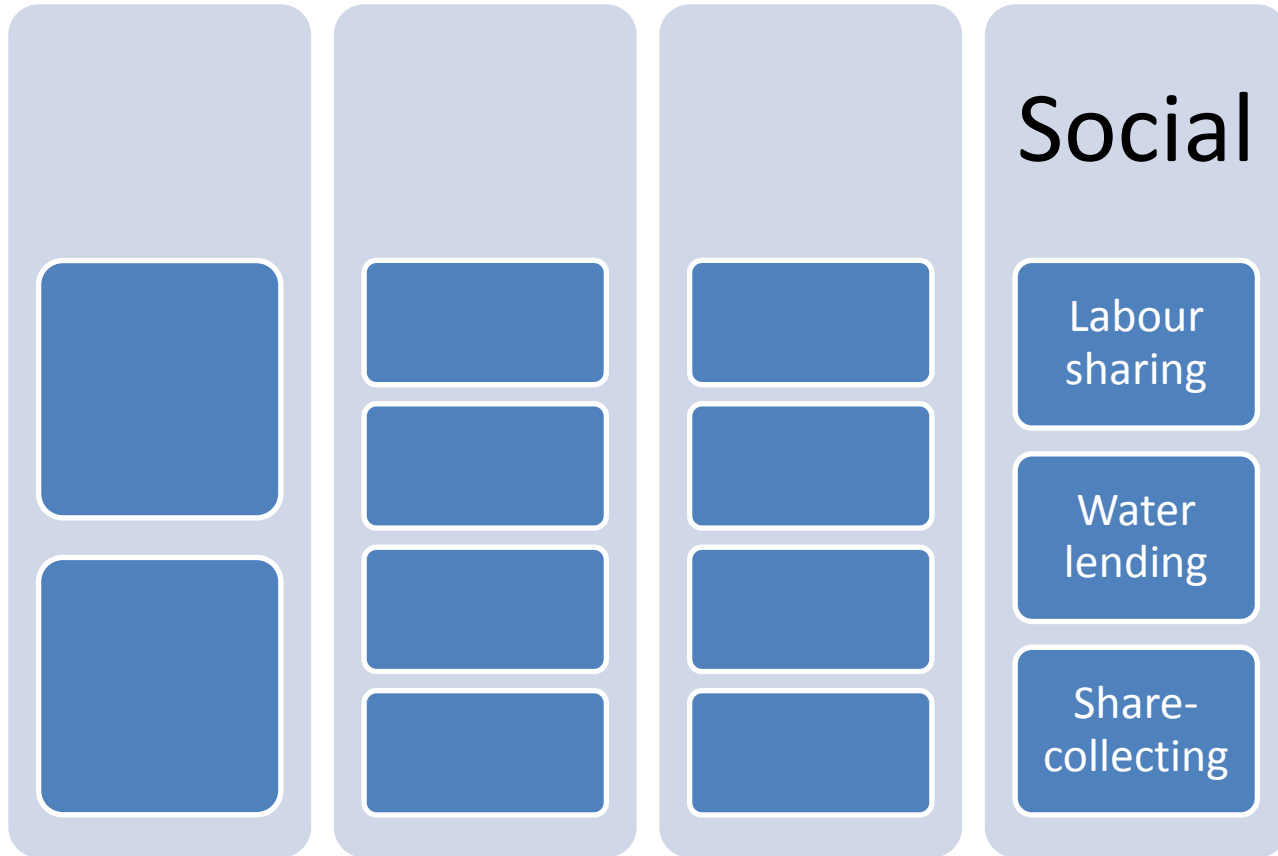

# Responses and Impacts

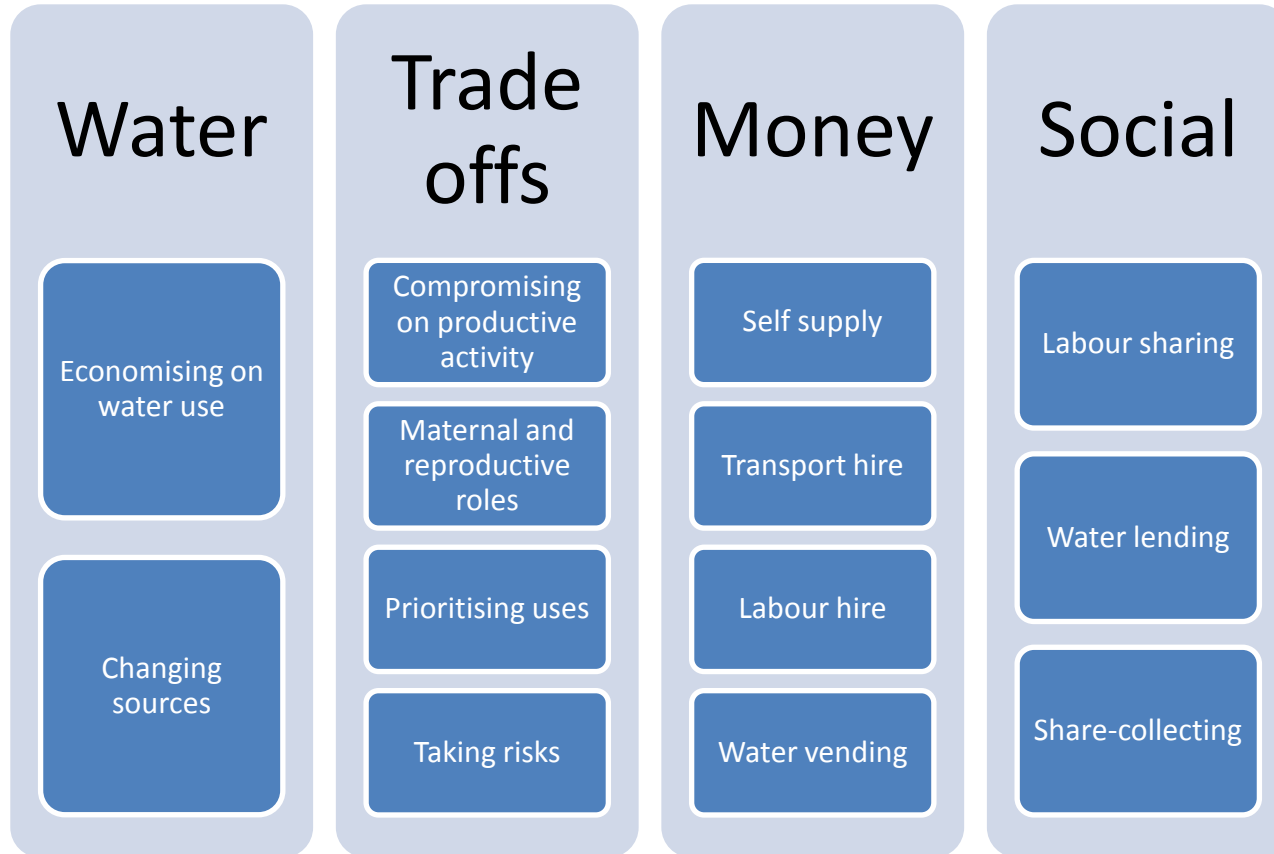

# Responses and Impacts

# Responses and Impacts

# Responses and Impacts

# Implications for Policy/Programmes

- Coherence of interventions to reduce core vulnerabilities – livelihoods, food, education...
- Post-2015. What should a new development model look like?
  - Where does WASH fit?
- How does global climate finance and rhetoric relate to local realities?
