## New Deal – Key messages

Our support to fragile states is not effective – We need to do things differently – Three changes are required to achieve results

1. Endorse and use **Peace- and Statebuilding Goals** as the new global framework to work in fragile states
2. Subscribe to different ways to **prioritise, plan, and jointly support transitions out of fragility**
3. **Reform the delivery and use of aid** to achieve better results in fragile states

# The New Deal
