<th>Disaster displacement</th>
</tr>
</thead>
<tbody>
<tr>
<td>Remain in situ</td>
<td>Planned evacuation with supported and desirable return</td>
<td>People may choose, be obliged or forced to leave their homes on a cyclical or temporary basis</td>
</tr>
</tbody>
</table>

### Multiple disaster displacement

- Multiple disaster displacement to the same location
- Multiple disaster displacement to different locations
- Repeated disaster displacement across multiple locations
- Multiple returns across multiple locations

### Protracted disaster displacement

- Protracted disaster displacement

### When return is not viable

- Unviable to return
- Planned relocation

The typology is intended to be illustrative rather than exhaustive.
